

Objective

To test the main features and functionality of the Coinzy mobile application using manual testing.

Scope

Included

- Signup
- Login
- Coin Identification
- Navigation
- Guest Access

Test Types

- Functional Testing
- UI Testing
- Usability Testing
- Validation Testing

Test Approach

Manual and exploratory testing was performed on Android devices to validate core user flows and identify defects.

Risks

- Limited device testing
- Internet dependency

Assumptions

- Stable internet connection available
- Latest application version installed
